The programs through **BIBLE COLLEGE IN A BOX** are practical in nature, economical, designed for motivated adults, and able to equip people for effective service for Christ.

This is the computer lab of an ITEN campus in a remote region of Haiti; it is powered entirely by a chain of car batteries. By partnering with us, you can make a way for the men and women of the nations of the world who possess a clear call of God on their lives to continue their education through the Bible College In-a-Box program. Together, we take the Whole Word to the Whole World and transform the nations for Jesus Christ.

A Bible College In-a-Box...

The **Bible College In-A-Box**, through **International Training & Education Network** is a unique ministry. It is unique in its programs, focus of ministry, and method of delivery. The programs are practical in nature and designed for individuals and groups who are truly seeking God, but do not have the resources to accomplish their goals.

The Word and knowledge of God are essential to every Christian and central to all the ITEN courses. The BCIB consists of a complete set of text books, study guides, and exams, designed to equip men and women in Biblical truths and the Christian life style. It allows the student to study the truths of God and receive a certificate upon completion of their studies.

The mandate of Jesus Christ to His followers is to "teach all nations and make disciples". Not all persons are available or equipped to travel to other nations or into the prisons to fulfill this primary Christian focus. The BCIB program provides the opportunity for all persons to accomplish this by participating with prayers and financial support.

INTERNATIONAL MINISTRIES - Many nations have few Christian resources to equip the leaders, teachers and students. The BCIB program is an inexpensive method of getting proper teaching materials to these ministers and teachers worldwide.

PRISON POPULATIONS – Most inmates have limited access to Christian study materials. The BCIB program provides these materials individually or through a ministry that oversees their study program.

REHAB MINISTRIES - Along with the core courses shown, additional courses are offered that pertain to special needs of those in recovery from compulsive behaviors. These courses are specially selected as an aid to mentors in recovery centers to assist those in rehabilitation.

HOW YOU CAN HELP...

SPONSORSHIP - You can be a part of this dynamic program to reach the sometimes unreachable, by helping to sponsor a student or an outreach campus.

ADOPT A CAMPUS - An adopted campus receives floppy or CD copies of all text books, student study guides, and exams that are appropriate for the ministry selected. The campus director or ministry is authorized and responsible to provide copies of all materials to the persons in their setting.

ADOPT A STUDENT - An adopted student receives copies of all text books, student study guides, and exams that are appropriate for their area of need. They are responsible to complete their work in a timely manner and finish the courses before receiving a certificate of completion.
